WORK EXPERIENCE

SOFTWARE DEVELOPER, SDSD PRESTIGE LIMITED

MAY 2021 till date

SDSD - Supporting Maritime Professionals Software innovations. As a software developer, I;

- Collaborates and participates in decision-making and brainstorming process on the IHM Supplier Portal
- Built the Draft, Pending & Quoted components of the Supplier Dashboard on IHM Supplier Portal
- Improved the performance and load-time speed through caching and deferring of API calls
- Adopts Agile Software Development Life Cycle methodology for product development.

ACHIEVEMENT: Delivered a product within my first 90 days of commencing the project.

SOFTWARE DEVELOPER (MERN), ELECTRIC RESCUE

MARCH 2021

Electric Rescue is a solution that addresses home & office electrical matters leveraging on the insurance model/policy. I;

- Created and managed the project repo
- Translated wireframe and design into products using quality codes
- Developed re-useable components using react concepts
- Optimized components to work seamlessly across different browsers and devices

ACHIEVEMENT: Built the Landing, Login, Sign up pages and Dashboard for various user roles.

FRONTEND DEVELOPER, FUNADEN FOODS LIMITED

MAY 2020 – OCTOBER 2020

Funaden Foods is a Food processing and packaging company. As the Frontend Developer, my core activities include;

- I managed and built various features and interfaces as required
- Translated UI designs and mockups to webpages which is responsive across all devices.
- Fixed a bunch of accessibility and performance issues.
- Improved the user experience and performance audit of the website.

FRONTEND DEVELOPER, GATA TRANSPORT LIMITED

JANUARY 2020 – MAY 2020

Gata Transport Limited is a digital transportation company that provides solution to transportation problems using modern technologies and approaches. As a Frontend Developer, my core activities are;

- Maintained and regularly updated the company's product website which boosted the monthly sales by 15%
- Automated and remodeled the visitor management process
- Participated in code review and brainstorming sessions.

ACHIEVEMENT: Built 80% pages and features on the Gogata Website.

EDUCATIONAL BACKGROUND

Diploma, Frontend Development, OpenClassrooms

Nov. 2020

B. Eng, Civil Engineering, Federal University of Technology, Akure

2014
